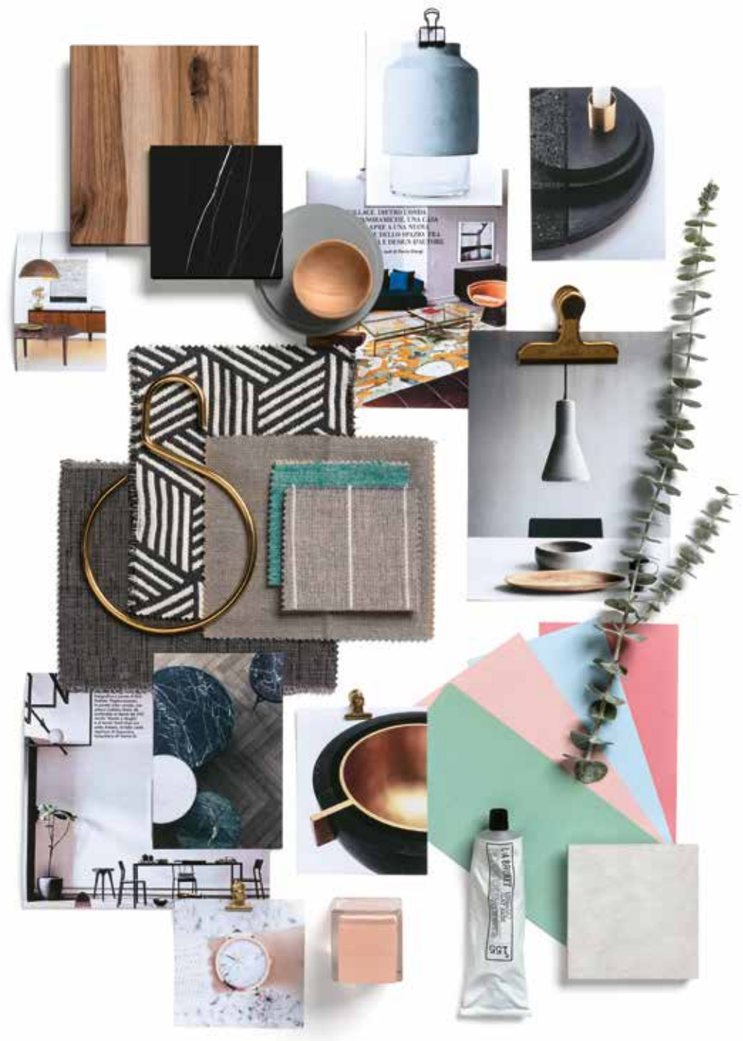
MIRAGE®
Porcelain.Design.Sustainability



TREND EXPLORER

L' attitudine alla ricerca ed alla sperimentazione che da sempre rappresenta uno dei punti di forza di Mirage®, trova un'ulteriore conferma in occasione di Cersaie 2017.
Uno sguardo attento all'evoluzione delle tendenze stilistiche che si traduce nella capacità di creare sinergie ed interazioni tra materie come marmi, cementi, legni, resine e pietre, esaltandone la combinabilità per raccogliere le sfide progettuali più innovative.
Un impegno costante che genera prodotti che vanno ben oltre il concetto di collezione, per diventare soluzioni versatili di superfici d'arredo per l'architettura contemporanea.

MIRAGE®
Porcelain.Design.Sustainability

TREND EXPLORER

EN
An aptitude for research and experimentation, which has always been one of the strengths of Mirage®, is evident once more at Cersaie 2017. This careful eye on the evolution of style trends allows us to create synergies and interactions between materials such as marble, concrete, wood, resin and stone, enhancing the ways in which they can be combined in order to rise to the most innovative design challenges. This constant commitment creates products that stretch well beyond the concept of a collection, offering versatile furnishing surface solutions for contemporary architecture.

DE
Forschung und Experimente sind seit jeher eine der Stärken von Mirage®, dies wird auf der Cersaie 2017 wieder einmal mehr bewiesen. Ein genauerer Blick auf die Entwicklung der Stilrichtungen, die sich in die Fähigkeit übersetzt, ein Zusammenspiel und Wechselwirkungen zwischen Materialien wie Marmor, Zement und Beton, Holz, Kunstharz und Naturstein zu schaffen. Dabei wird die Kombinierbarkeit hervorgehoben, um innovative Projekte zu gestalten.
Ein ständiges Engagement, das Produkte entstehen lässt, die über das Konzept der Kollektion hinausgehen, um zu vielseitigen Lösungen für Möbel und aktuelle Architekturideen zu werden.

FR
L'aptitude à la recherche et à l'expérimentation, l'un des points forts de Mirage® depuis sa création, est une nouvelle fois confirmée à l'occasion du Cersaie 2017. Un regard attentif à l'évolution des tendances stylistiques qui se traduit par une capacité à impulser synergie et interactions entre matériaux tels que les marbres, bétons, bois, résines et pierres, exaltant leur faculté à se combiner pour relever les défis conceptuels les plus innovants.
Un engagement permanent qui engendre des produits allant bien au-delà du concept de collection, pour devenir des solutions polyvalentes d'espaces d'aménagement pour l'architecture contemporaine.

ES
La capacidad de investigación y experimentación, que desde siempre es uno de los puntos fuertes de Mirage®, se confirma una vez más con ocasión de Cersaie 2017. Una mirada atenta a la evolución de las tendencias de estilo que se traduce en la creación de sinergias e interacciones entre materiales como mármoles, cementos, maderas, resinas y piedras, destacando su capacidad de combinarlos para afrontar los desafíos de los proyectos más innovadores.
Un esfuerzo constante que da como resultado productos que van mucho más allá del concepto de colección, convirtiéndose en soluciones versátiles de superficies de decoración para la arquitectura contemporánea.

RU
Стремление к поиску и экспериментированию, всегда составлявшее сильную сторону компании Mirage®, находит дальнейшее подтверждение на выставке-салоне Cersaie 2017. Внимание, с которым компания следит за развитием стилистических тенденций, находит выражение в ее способности создавать синергию и взаимодействие между такими материалами, как мрамор, цемент, дерево, смолы и натуральный камень, подчеркивая их комбинируемость, что позволяет принимать вызов, бросаемый любыми самыми инновационными проектами.
Это непрерывная работа, в результате которой создаются продукты, выходящие за рамки простого понятия коллекции, чтобы предложить многофункциональные решения облицовки поверхностей, соответствующие духу современной

CEMENTING A NEW STYLE

Tutta la storia dell'architettura moderna e contemporanea, dalle origini della corrente brutalista di Le Corbusier alle casseformi giapponesi di Tadao Ando, ha visto il cemento come uno dei materiali più utilizzati all'interno del panorama del design, poiché permette ad ogni progettista di configurare e di personalizzare gli spazi seguendo specifiche esigenze stilistiche e arredative.

GLOCAL richiama l'anima del cemento spatolato nella sua veste più neutra ed eclettica.
Tonalità che vanno dal bianco all'antracite passando per sfumature di grigio e beige fino a colori metallici.
Nuances abbinabili tra di loro e che convivono matericamente con altre collezioni in gamma Mirage®, al fine di enfatizzare ulteriormente le soluzioni arredative e di design.

CEMENTING
A NEW STYLE

EN
In the history of modern and contemporary architecture, from the origins of Le Corbusier's brutalist current to Tadao Ando's Japanese formwork, concrete has been one of the most commonly used materials in the design world, as it allows every designer to configure and customise spaces following specific style and interior design needs.
GLOCAL is reminiscent of spattled cement, in its most eclectic, neutral guise.
Tones that range from white to anthracite, including shades of grey and beige, nuances that can be matched together or combined elegantly with other collections in the Mirage® range, to further emphasise interior design solutions.

DE
Im Laufe der Geschichte der modernen und zeitgenössischen Architektur, von den Ursprüngen des Brutalismus von Le Corbusier bis zu den Schalungen des japanischen Architekten Tadao Ando, haben sich Zement- und Betonböden zu einem der am häufigsten verwendeten Gestaltungsmaterialien entwickelt. Denn dieses Material lässt dem Planer alle Freiheit, den Raum ganz nach den stilistischen Vorlieben und Einrichtungsbedürfnissen zu konfigurieren und anzupassen.
GLOCAL bringt die wesentlichen Eigenschaften von Zementspachtelboden zum Ausdruck – neutraler Charakter und gleichzeitig vielseitige Anwendung. Von Weiß über Grautöne und Beige bis hin zu Anthrazit, die Farbtöne können miteinander kombiniert werden und passen vom Materialcharakter her auch gut zu den anderen Kollektionen von Mirage®, um so die Einrichtungs-und Dekorlösungen noch besser zur Geltung zu bringen.

FR
Toute l'histoire de l'architecture moderne et contemporaine, des origines du courant brutaliste de Le Corbusier aux coffrages japonais de Tadao Ando, a considéré le béton comme l'un des matériaux les plus utilisés dans l'univers du design, car il permet à tout concepteur d'élaborer et de personnaliser les espaces en se conformant aux exigences spécifiques relatives au style ou à l'aménagement.
GLOCAL évoque l'âme du béton spatulé dans ce qu'elle a de plus neutre et éclectique.
Des tons du blanc à l'anthracite en passant par des nuances de gris et de beige, nuances assorties les unes aux autres, dont les textures s'accordent parfaitement avec celles d'autres collections de la gamme Mirage®, afin de mieux valoriser encore les solutions d'aménagement et de design.

ES
Toda la historia de la arquitectura moderna y contemporánea, desde los orígenes de la corriente brutalista de Le Corbusier a los encofrados japoneses de Tadao Ando, ha visto cómo el cemento es uno de los materiales más utilizados en el ámbito del diseño, ya que permite a cada diseñador configurar y personalizar los espacios siguiendo exigencias de estilo y decorativas específicas.
GLOCAL refleja el alma del cemento espatulado en su identidad más neutra y ecléctica.
Tonos que van del blanco al antracita, pasando por matices de gris y beis combinables entre ellos y que conviven con otras colecciones de la gama Mirage® con el fin de destacar aún más las soluciones decorativas y de diseño.

RU
Во всей истории модернистской и современной архитектуры, от истоков брутальной архитектуры Ле Корбузье до конструкций в виде опалубки японца Тадао Андо, цемент всегда был наиболее используемым материалом в дизайне, поскольку он позволяет любому проектировщику конфигурировать и персонализировать пространство, следуя определенным стилистическим и дизайнерским требованиям.
GLOCAL выражающую истинный дух шлифованного цемента в его наиболее нейтральном и эклектичном облике.
Цвета, переходящие от белого до антрацита через теплые и холодные серые тона, прекрасно сочетаются между собой и позволяют комбинировать плитку с другими коллекциями гаммы Mirage®, чтобы сделать еще более выразительными дизайнерские и интерьерные решения.

EVO_2/E™

IT
Come da tradizione Mirage®, anche l'offerta di GLOCAL si estende al mondo dell'outdoor living con la proposta a catalogo EVO_2/E, il progetto di superfici per la pavimentazioni e l'arredamento degli spazi esterni. La collezione, infatti, è disponibile anche nei formati 60x60x2 cm e 90x90x2 cm.

EN
As dictated by the Mirage® tradition, GLOCAL also supports the outdoor living world with a range in the EVO_2/E catalogue, the flooring and furnishing project dedicated to outdoor spaces. The collection is also available in sizes 60x60x2 cm and 90x90x2 cm.

DE
Wie es die Tradition von Mirage® will, wird Glocal auch für Außenbereiche angeboten, als Teil des Systems EVO_2/E, dem Projekt für Bodenbeläge und die Einrichtung von Garten und Terrasse. Die Kollektion ist auch in den Größen 60 x 60 x 2 cm und 90 x 90 x 2 cm erhältlich.

FR
Comme le veut la tradition chez Mirage®, Glocal s'étend au monde de l'outdoor living avec l'offre sur catalogue EVO_2/E, le projet de surfaces pour le revêtement des sols et l'aménagement des espaces extérieurs. La collection est également disponible aux formats 60x60x2cm et 90x90x2cm.

ES
Como es tradición en Mirage®, también la oferta de Glocal se extiende al mundo de los exteriores con la propuesta en catálogo EVO_2/E, el diseño de superficies para pavimentación y decoración de espacios exteriores. De hecho, la colección también está disponible en los formatos de 60 x 60 x 2 cm y 90 x 90 x 2 cm.

RU
По уже установившейся традиции компания Mirage® предлагает плитку GLOCAL также и для наружных работ, представленных в каталоге EVO_2/E – проекте плитки для наружного мощения и элементов наружной обстановки. И действительно, в коллекции имеется также плитка в форматах 60x60x2 см и 90x90x2 см.

Depot GC 20 Iron MET
60x60 / 24"x24"
by Odo Fioravanti

CONCEPT

IT
Il progetto Depot nasce da un incontro casuale tra il designer Odo Fioravanti e la texture di un telone da cantiere, dalla trama insieme regolare e irregolare. Come un cenno di chi ti chiede di avvicinarti, questa texture è diventato il punto di partenza di un percorso di complesse rielaborazioni grafiche che sono approdate in questo progetto di decoro su superficie metallica, come omaggio all'amore per l'estetica industriale che caratterizza il designer. Sottili crocini sempre diversi brillano su un fondo di materia più opaca e sfiammata, quasi a sembrare appendici consumate e lucidate dall'usura, come quelle parti di certe statue di bronzo che se toccate sono di buon auspicio.

EN
The Depot project is the result of a chance encounter between the designer Odo Fioravanti and the texture of a tarpaulin used in construction sites, with both even and uneven features.
Like a gesture beckoning the observer, this texture provided the inspiration for a series of complex graphic processes that came together in this project for the decoration of metal surfaces, paying homage to the industrial style the designer is renowned for. Small, subtle printing marks, each different from the next, sparkle on a more matt, flamed background, seeming almost like appendices worn and polished with use, like the parts of certain bronze statues people touch for good luck.

IT
Le composizioni GLOCAL SUIT EXTRUDE sono prodotte esclusivamente on demand.
In seguito alla ricezione di una planimetria quotata delle aree da rivestire, Mirage realizzerà un disegno ad hoc sulla base alla composizione scelta. Il materiale perverrà a destinazione imballato sequenzialmente, numerato e con un disegno di riferimento per agevolare le operazioni di posa. Per ulteriori informazioni, contattare il proprio referente commerciale.

EN
The GLOCAL SUITE EXTRUDE compositions are produced on demand.
Following the precise layout including all details of the area to be tiled (floor and wall coverings), Mirage will produce a specific design, according to the chosen pattern. The composition will be produced and delivered packaged in sequence, numbered and with laying drawings and instructions. For further information, please refer to your commercial representative.

UPGRADE

NOON

WOOD / COOL / MOOD

L'interpretazione in grès porcellanato del legno più vissuto e materico incontra il panorama outdoor!
NOON arricchisce infatti la propria gamma di superfici per formati in spessore tradizionale con la finitura naturale antiscivolo R11, A+B+C.

Un upgrade sostanziale che consente di creare spazi in cui indoor ed outdoor si integrano in perfetta continuità visiva; un' armonia estetica che racchiude le performance di affidabilità del grès porcellanato Mirage®, per affrontare con sicurezza ogni ambito progettuale.

EN
A porcelain stoneware interpretation of the aged, material allure of wood enters the outdoor scenario!
NooN adds a natural R11, A+B+C anti-slip finish to its range of surfaces for sizes with traditional thickness.
This substantial upgrade allows for the creation of settings in which indoor and outdoor settings blend seamlessly with one another, creating a smooth visual effect that offers all the reliability and performance of Mirage porcelain stoneware, for a confident approach to any design project.

DE
Die Interpretation des gelebten, materischen Holzes in Feinsteinzeug begegnet dem Outdoor-Panorama!
So wird die Auswahl an Oberflächen für Formate in der traditionellen Stärke mit matter rutschfester Oberflächenausführung R11, A+B+C von NooN bereichert.
Ein wesentliches Upgrade, dank dem man Räume gestalten kann, bei denen der Indoor- und Outdoorbereich mit einer perfekten optischen Kontinuität miteinander integriert sind; eine ästhetische Harmonie, die die Verlässlichkeit des Feinsteinzeugs von Mirage in sich einschließt, um jedem Planungsbereich in Sicherheit gerecht zu werden.

FR
L'interprétation en grès cérame du bois le plus vécu où la matière domine va à la rencontre des espaces extérieurs !
En effet, NooN enrichit sa gamme de surfaces pour formats à épaisseur traditionnelle avec une finition brute antidérapante R11, A+B+C.
Une avancée considérable qui permet de créer des espaces où l'intérieur et l'extérieur s'intègrent dans une parfaite continuité visuelle ; une harmonie esthétique faite des performances de fiabilité du grès cérame Mirage, pour relever tous les défis conceptuels en toute confiance.

ES
¡La interpretación en gres porcelánico de la madera envejecida y matérica abraza el panorama outdoor!
NooN enriquece su gama con superficies para formatos de espesor tradicional con el acabado natural antideslizante R11, A+B+C.
Una renovación sustancial que permite crear espacios interiores y exteriores con una perfecta continuidad visual; una armonía estética que encierra las prestaciones fiables del gres porcelánico de Mirage, para enfrentar con seguridad cada ámbito de proyecto.

RU
Керамогранит с имитацией состаренного дерева находит свое применение для наружных отделочных работ!
Серия NooN расширяет ассортимент напольных керамических покрытий из плит стандартной толщины с натуральной нескользящей поверхностью R11, A+B+C.
Такой усовершенствованный материал позволяет осуществлять проекты, в которых интеграция внутренних и внешних пространств создает зрительный эффект сплошной поверхности. При этом эстетическая гармония дизайна предполагает надежные технические характеристики керамического гранита Mirage, безопасная эксплуатация которого имеет принципиальное значение для любого проекта.

FOCUS ON

BIG SIZES

Il panorama evolutivo dell'architettura contemporanea, influenzato dai nuovi modi di vivere e dai continui mutamenti dell'era tecnologica, ha generato inedite aspettative nei processi progettuali.
All'interno di questo contesto dinamico, Mirage® amplia la propria gamma di grandi lastre introducendo i formati 160x160 e 160x320 cm. Prodotti che offrono nuove opportunità creative e funzionali, garantite dalle dimensioni e dalle molteplici possibilità applicative.

Prodotte in 6 mm di spessore e concepite come naturale estensione di alcune collezioni a catalogo Mirage®, le grandi lastre assicurano leggerezza, facilità di movimentazione, taglio e posa. Soluzioni che rappresentano una valida alternativa al grès porcellanato in spessore tradizionale per tutti gli impieghi dove il peso contenuto rappresenta un fattore preferibile. Tutte le referenze della gama grandi lastre Mirage® sono disponibili, esclusivamente su richiesta, anche in spessore 12 mm.

OVERVIEW CERSAIE 2017

BIG SIZES

EN
The shifting trends on the contemporary architecture scene, influenced by new ways of life and the continual changes of the technological area, have led to new expectations regarding design processes.
In this dynamic context, Mirage® has extended its range of large slabs by introducing the 160x160 and 160x320 cm sizes. These products offer new creative and functional opportunities, guaranteed by the dimensions and the numerous possible applications.
Produced with a thickness of 6 mm and conceived as a natural extension of a number of collections in the Mirage® catalogue, these large slabs are light and easy to handle, cut and lay, offering solutions that are a valid alternative to traditional-thickness porcelain stoneware in all cases where light weight is an important factor. All the products in the Mirage® large slabs range are also available, on request only, with a thickness of 12 mm.

DE
Das sich verändernde Panorama der zeitgenössischen Architektur wird durch neue Lebensstile und die ständigen Veränderungen der technologischen Ära beeinflusst, dies hat zu neuen Erwartungen für Planungsprozesse geführt.
Innerhalb dieses dynamischen Kontexts erweitert Mirage® sein Sortiment an großformatigen Platten mit den Formaten 160x160 und 160x320 cm. Dabei handelt es sich um Produkte, die aufgrund des großen Formats und der Vielfalt der Einsatzmöglichkeiten neue kreative und funktionale Möglichkeiten anbieten.
Die Platten werden mit 6 mm Stärke hergestellt und verstehen sich als natürliche Erweiterung der bereits im Katalog angebotenen Kollektionen von Mirage®. Diese großformatigen Platten gewährleisten Leichtigkeit, einfache Handhabung, Zuschnitt und Verlegung. Diese Lösungen bieten eine praktische Alternative zu traditionellem Feinsteinzeug in herkömmlichen Stärken für alle Anwendungen, für die ein geringeres Gewicht von Vorteil ist. Alle Artikel des Sortiments „großformatige Platten" von Mirage® sind nur auf Anfrage auch mit 12 mm Stärke verfügbar.

ES
El panorama evolutivo de la arquitectura contemporánea, con la influencia de las nuevas formas de vida y de los continuos cambios de la era tecnológica, ha generado nuevas expectativas en los procesos de diseño.
En este contexto dinámico, Mirage® amplía su gama de grandes placas introduciendo los formatos 160x160 y 160x320 cm. Productos que ofrecen nuevas oportunidades creativas y funcionales garantizadas por su tamaño y por sus múltiples posibilidades de aplicación.
Fabricadas con 6 mm de espesor y diseñadas como una extensión natural de algunas colecciones del catálogo de Mirage®, las grandes placas garantizan ligereza y facilidad de transporte, corte y colocación. Soluciones que son una alternativa válida al gres porcelánico de espesor tradicional para todos los usos en los que el peso reducido es un factor esencial. Todas las referencias de la gama de grandes placas de Mirage® están disponibles en 12 mm de espesor únicamente bajo petición.

FR
L'univers en évolution de l'architecture contemporaine, influencé par les nouveaux modes de vie et les mutations continues de l'ère technologique, a créé des attentes nouvelles au sein des processus conceptuels. Dans ce contexte dynamique, Mirage® élargit sa gamme de plaques de grandes dimensions en y ajoutant les formats 160x160 et 160x320 cm. Des produits offrant de nouvelles opportunités créatives et fonctionnelles, permises par leurs dimensions et leurs multiples possibilités d'application.
Produites en 6 mm d'épaisseur et conçues comme une extension naturelle d'une partie des collections sur catalogue Mirage®, les grandes plaques garantissent légèreté, facilité de manutention, découpe et pose.
Des solutions qui offrent une alternative crédible au grès cérame pour les épaisseurs traditionnelles pour tous les usages où la composante pondérale représente un facteur de choix. L'ensemble des références de la gamme des grandes plaques Mirage® sont disponibles, exclusivement sur demande, en 12 mm d'épaisseur.

RU
Развитие современной архитектуры, на которое оказывают влияние меняющийся образ жизни и постоянные изменения технологической эры, породило новые ожидания и в сфере проектирования.
В рамках этого динамичного контекста компания Mirage® расширяет свой ассортимент крупноформатных плит, добавив форматы 160x160 и 160x320 см. Эти продукты предлагают новые креативные и функциональные возможности, гарантируемые размерами и разнообразием назначения.
Выпускаемые в толщине 6 мм и разработанные, как естественное продолжение некоторых коллекций из каталога Mirage®, крупноформатные плиты гарантируют легкость и удобство при перемещении, обрезке и укладке.
Это решение составляет альтернативу плитке из керамического гранита традиционной толщины там, где меньший вес становится предпочтительным фактором.
Все крупноформатные плиты Mirage® изготовляются исключительно на заказ, в том числе и в толщине 12 мм.

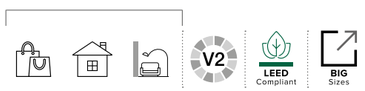
Destinazioni d'uso | Destination use



IT
Mirage® raccomanda l'utilizzo delle grandi lastre in spessore 6 mm per le sole applicazioni in ambito residenziale, commerciale a traffico leggero e comunque in contesti ove non vi sia passaggio di carichi puntuali pesanti o transito di carrelli a ruote dure.

EN
Mirage® recommends the use of the large slabs with a thickness of 6 mm only for applications in residential settings, commercial settings with light traffic or not subject to heavy loads or forklifts with rigid wheels.

DE
Mirage® empfiehlt die Verwendung von großen Platten mit 6 mm Stärke nur für Anwendungen im Wohnbereich und in Gewerbebereichen mit geringer Trittbelastung, oder in Bereichen, in denen zumindest keine Rollwagen mit harten Rädern zum Einsatz kommen oder schwere punktuelle Belastungen auftreten.

FR
Mirage® recommande l'utilisation des grandes plaques de 6 mm d'épaisseur pour les seules applications en milieu résidentiel, commercial à trafic léger et pour tous les lieux non soumis au passage de charges lourdes occasionnelles ou à la circulation de chariots à roues dures.

ES
Mirage® recomienda el uso de grandes placas de 6 mm de espesor para las aplicaciones en entornos residenciales, comerciales de tráfico ligero y en cualquier contexto en el que no se produzca el paso puntual de cargas o no haya tránsito de carros de ruedas duras.

RU
Компания Mirage® рекомендует использовать крупноформатные плиты толщиной 6мм исключительно в жилых и торговых помещениях с невысокой нагрузкой, и в любом случае, в контексте, где не происходит перемещение значимых точечных нагрузок и не используются автопогрузчики на твердых шинах.

La composizione Bookmatching riproduce l'effetto "a macchia aperta", con venatura speculare, tipica dei marmi pregiati.
Le lastre A e B possono essere ordinate e posate singolarmente, a coppie o in combinazioni multiple. Alcune di queste combinazioni sono proposte in questo catalogo a titolo esemplificativo. Eventuali disallineamenti tra le venature in continuità sono da considerarsi caratteristica intrinseca del prodotto.

L'immagine rappresentata serve a dare un'idea indicativa del prodotto, toni e venature possono essere quindi suscettibili di variazioni.

EN

The Bookmatching composition reproduces the "open patch" effect with specular graining typical of precious marbles.
Slabs A and B may be ordered and laid singly, in pairs or multiple combinations.
Some of these combinations are proposed in this catalogue as an example.
Any mismatch of the grain continuity must be considered an intrinsic feature of the product.

The image shown gives an indicative idea of the product, shades and grains, which may therefore be subject to variation.

IT

Per garantire una resa estetica ottimale e per rispettare la casualità tipica dei riferimenti naturali, le lastre Mirage® sono sviluppate in cinque pattern per ogni essenza interpretata.
Il processo produttivo non garantisce però la continuità nel disegno della venatura tra i vari pezzi spediti.
Eventuali disallineamenti tra le venature in continuità sono da considerarsi caratteristica intrinseca del prodotto.

L'immagine rappresentata serve a dare un'idea indicativa del prodotto, toni e venature possono essere quindi suscettibili di variazioni.

EN

To ensure the best visual results and respect the typical randomness of their natural references, Mirage® slabs are developed in five patterns for each interpreted material.
The production process does not however guarantee the continuity of the grain pattern in the shipped pieces.
Any mismatch of the grain continuity must be considered an intrinsic feature of the product.

The image shown gives an indicative idea of the product, shades and grains, which may therefore be subject to variation.
